GROUP BENEFITS

Payroll and Benefits Services in One

Payentry offers group benefits insurance services and support to clients through its Financial Services division, providing an all-inclusive solution that integrates benefits with your payroll solution.

What is Payentry Financial Services (PFS)?

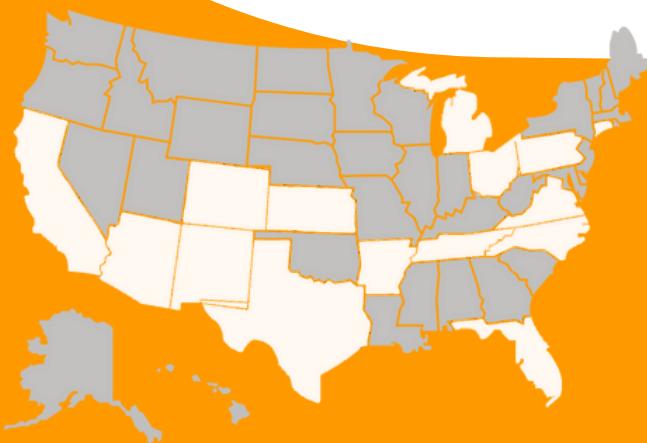

Payentry Financial Services (PFS) is a full service employee benefits consulting firm, specializing in insurance and financial services, including, but not limited to: group health, dental, vision, life, disability, and voluntary workplace benefits. We believe that delivering your employee an excellent experience through innovation, cost effective benefits, and superior customer service sets us apart from the competition.

What sets PFS apart from other insurance brokerages and consultants?

The PFS team works directly with your Client Advocate to create centralized communications and workflow processes including payroll integration and reduction of managing multiple vendors. Clients have a single point of contact to manage account needs and real-time access to employee data so changes may be made immediately, updating multiple areas at once.

What is the cost for a PFS consultation?

There is no cost for PFS review of company benefits offerings or to use the service for group setup and account management.

States currently served by PFS.

PFS is currently licensed to sell group benefits in the following states:

- Arkansas
- Arizona
- California
- Connecticut
- Colorado
- Florida
- Kansas
- Michigan
- New Mexico
- North Carolina
